

Essentials

Calls

View calls that happened

In the calls tab, you can view all the calls that happened. It will show the transcript and also give you the option to listen to the call. The Transcript has a toggle that when activated will also show the transitions and functions that were called throughout the conversation.

Calls can be filtered by Status, Date, Phone number and conversation id. They can be exported as well.

Different call statuses:

- **Completed:** AI completed the call and got to the end node
- **Dropped:** The customer hung up before the end node was rached
- **Failed:** Technical problem
- **No answer:** Customer did not pick up / voicemail detected
- **In progress:** Call is still happening

Transcript

Hi this is Donna. Are you calling in regard to the government subsidy for free health insurance?

13:40:23

Yes.

13:40:33

Great! For enrollment purposes, I'm going to ask you a few questions.

13:40:34

Umm, are you currently on Medicaid, yes or no?

13:40:38

No.
